## WORLD RANKING

The Fédération Internationale de Volleyball (FIVB) Board of Administration has a system of point attribution for specific events and percentage-based point reduction over a period of time. The purpose of the World Ranking is to provide an objective scale of values of teams participating in sanctioned volleyball events. Points earned are restricted to ICSD-sanctioned events for the deaf only.

1. The World Ranking List is composed of a list of nations, 3-letter country codes, country flags, total points, events, event-based points, and date of last update. The list is sorted in a descending order by total points.
2. The World Ranking List is published under Sports – Volleyball on the ICSD website.
3. The inaugural implementation of the World Ranking shall have all teams start at zero (0) points prior to the 2008 World Deaf Volleyball Championships (Buenos Aires, Argentina).
4. A team shall earn zero points at any event for which it registered but did not participate in (forfeiture or withdrawal).

## RANKING POINTS : FORMULA

The system of point attribution for the selected ICSD official competitions is as follows:

1. Regional Confederation Deaf Volleyball Championships is included for 4 years with a 25% reduction each year.
2. World Deaf Volleyball Championship is included for 4 years with a 25% reduction each year.
3. Deaflympics is included for 4 years with a 25% reduction each year.

In a traditional system, points are awarded to teams based on their final event placements using a fixed table of final placements and points. This traditional system does not work well for the sport of volleyball because the number of teams participating in each regional confederation ("RC") volleyball championships varies. For example, Team "X" who finishes third in a field of four teams in one RC event would earn the same points as Team "Y" who also finishes third but in a much larger and more competitive field of ten teams in another RC event.

Therefore, the formula that will be applied to all events – both large and small – is as follows:

$$\text{Points\_Earned} = \text{Event\_Multiplier} \times (\text{Number\_Of\_Event\_Teams} - (\text{Team\_Event\_Placement} - 1))$$

Each event's multiplier, the *Event\_Multiplier*, is assigned as follows:

Regional Confederation:	<b>1</b>
World Championships:	<b>2</b>
Deaflympics:	<b>4</b>

The table shown below is an example where the number of teams in each event varies.

Regional Confederation Deaf Volleyball Championships				World Deaf Volleyball Championships		Deaflympics
